Beyond your data

- Oy 4Pharma Ltd was established in 2002 and is today located in Turku, Helsinki, Stockholm and Basel. We provide local, world-class services for life science companies, primarily in the pharmaceutical industry.
- Our core business is biostatistics, data management, data warehousing, information technology and medical services.

We are currently hiring a Senior SAS Programmer

- We are strengthening our organization by recruiting a Senior SAS programmer, with experience working with SDTM/ADAM datasets, to our offices in Finland. Alternative locations can be discussed with the right candidate.
- The role will be tailored based on the profile of the candidate. The assignments could include creating SDTM datasets, standards conformance checks, define.xml creation, annotation of CRFs, creating ADAM datasets, creating outputs (TFLs), validating outputs, etc.
- To qualify for this role, you should have previous experience from the pharmaceutical industry and a university degree in statistics, computer science, programming or natural sciences. Excellent understanding of clinical databases and data standards is required. Previous experience on working with marketing authorization applications is considered as a major advantage.
- Excellent skills in both written and spoken English are required. Finnish / Swedish language skills are an advantage, but not a requirement.
- You will collaborate with statisticians, data managers, medical writers and clients. As a person, you are thorough, happy to take on responsibilities, proactive and a team player. You are focused on quality always having the client in mind.
- We offer you an exciting and challenging job in a modern and flexible company with a friendly environment.
- For more information please contact Head of Statistics Jouni Junnila (+358 50 3489 433)
- Applications and CVs with salary requests by 7.12.2016 to: Head of Statistics Jouni Junnila jouni.junnila@4pharma.com.
- Candidates will be interviewed continuously during the recruitment period. The position will be filled as soon as suitable candidate is found. This is primarily a permanent position, but possibilities to work as a contractor can be discussed.
