

- Oy 4Pharma Ltd was established in 2002 and is today located in Turku, Helsinki, Stockholm and Basel. We provide local, world-class services for life science companies, primarily in the pharmaceutical industry.
- Our core business is biostatistics, clinical data management, data warehousing, information technology and medical services.

We are currently hiring a SAS Specialist / Data Scientist

- We are strengthening our organization by recruiting a SAS Specialist, to our offices in Helsinki (or Turku).
- To qualify for this role, you should have comprehensive previous experience of SAS programming and a university degree in statistics, computer science, programming or natural sciences. Understanding of clinical databases and data standards (e.g. CDISC) is considered as an advantage.
- Excellent skills in both written and spoken English are required. Finnish / Swedish language skills are an advantage, but not a requirement.
- You will collaborate with statisticians, data managers, medical writers and clients. As a person, you are thorough, happy to take on responsibilities, proactive and a team player. You are focused on quality always having the client in mind.
- We offer you an exciting and challenging job in a modern and flexible company with a friendly environment.
- For more information please contact Head of Statistics Jouni Junnila (+358 50 3489 433)
- Applications and CVs with salary requests by 22.01.2017 to: Head of Statistics Jouni Junnila jouni.junnila@4pharma.com.
- Candidates will be interviewed continuously during the recruitment period. The position will be filled as soon as suitable candidate is found. This is primarily a permanent position, but possibilities to work as a contractor can be discussed.
